

FAISAL NAVEED

faisalnaveed1011@gmail.com | (+61) 0430021252 | [LinkedIn](#)

EDUCATION

Bachelor of Advanced Computing (Honours)
Computational Data Science & Business Information Systems
The University of Sydney

July 2023 - Aug 2027

EXPERIENCE

Full Stack Developer & (Interim) Technology Lead

[Multivrse Digital](#) (Sydney, NSW)

Dec 2025 - Apr 2026

- Cloud infrastructure migration from AWS to Akamai Linode
- Multilingual RAG AI Chatbot implementation & model integration
- Production web presence with CI/CD driven deployments, performance optimisation & end-to-end SEO
- Early stage business development via outreach, founding client meetings & translating client needs to scalable technical solutions

Software Developer Intern

[Aurm](#) (Bangalore, India)

Jan 2026 - Feb 2026

- Structured codebase for FaceID service and implemented gender detection algorithm via Base64 encoding
- Define Client Transactions Logic and set up pipeline for onboarded vault cameras to capture recording automatically and store it locally + cloud upload
- Structure multiple system and user events to trigger API endpoints in pipeline flow
- Define AWS Event-Driven Notification Workflow (SNS, SQS)
- Structured MongoDB to support client transactions inside Aurm's Bay Area and Aurm's Vault
- Set up automated vault recording in error and edge case related events

PROJECTS

Predicting 30-Second Stock Volatility from High-Frequency Order-Book Data

- Engineered 19 lagged features from 10-minute windows to predict next-30s volatility.
- Benchmarked HAR-RV, GAM, LightGBM; stepwise HAR-RV led on composite R^2 + QLIKE.
- Delivered an interactive Shiny app for real-time visualisations and on-demand model training.

STUDENT SOCIETIES

Sydney University Artificial Intelligence Association ([SUAIA](#))

Founding Member & Treasurer

Dec 2024 - Present

- Co-founded USYD's first and only student-run AI society, establishing its mission to bridge the gap between academic learning and real-world AI application across a university-wide student base
- Organised and delivered workshops, speaker sessions, and industry nights featuring senior professionals from FAANG companies and YC backed startups, exposing students to cutting-edge industry practices and career pathways in AI
- Scaled the society to ~600 active members, making it one of USYD's largest societies

CERTIFICATIONS

Google Advanced Data Analytics Professional Certificate

[ID: IEWYXOK2W89R](#)

Google Machine Learning Professional Certificate

[ID: PY6P4N95AU86](#)

AWS Academy Certified Cloud Architect

[ID: cce674f9ae47](#)

SKILLS

Programming Languages & Databases: Python, Java, Swift, JavaScript, HTML, CSS, R, RStudio MySQL, PostgreSQL, Oracle, MongoDB, Typescript, React

Analytical Skills & Frameworks: Pandas, NumPy, GeoPandas, Scikit Learn, Statsmodels, Plotly, Microsoft PowerBI, Tableau, Figma, Excel

Soft Skills: Communication, Collaboration & Teamwork, Problem Solving, Leadership, Creativity, Logical & Analytical Thinking
